

BIKE WASH – M-BW 001

Product Description:

Bike Wash is a water based, low-foaming, biodegradable and environmentally friendly cleaner. It is odorless and is mild to skin.

Bike Wash does not contain alcohol, silicones, wax, animal oil, petroleum distillates, soaps, chemical thickening agents, nitrates, enzymes, phosphates, animal fatty acids, hydrocarbon toxic solvents, non-biodegradable surfactants and ozone depleting substances.

Application:

Bike Wash removes typical dirt build-up on motorcycles. It effectively removes oil, grease, soil, stains and dust without damaging the paint surface of the motorcycle. It also prevents grime build up to make future cleaning easier.

Directions:

Wet the motorcycle thoroughly. Apply diluted Bike Wash on sponge or cloth and mop onto the motorcycle thoroughly. Rinse with water.

Bike Wash : Water

Heavy grease and soil removing = 1 : 50

Medium grease and soil removing = 1 : 50 - 150

Mild grease and soil removing = 1 : 150 - 500

BIKE METAL BRIGHTENER – M-BMB 002**Product Description:**

Bike Metal Brightener is a non-water based, non-acidic, low-foaming, biodegradable and environmentally friendly cleaner. It is made of powerful Nano Biotech Colloidal Micelles (NBCM); using natural plant extracts, plant derivatives and biodegradable surfactants. It is palm oil scented and is mild to skin.

Bike Metal Brightener does not contain alcohol, petroleum distillates, hydrochloric acid, sulfuric acid, phosphoric acid, soaps, chemical thickening agents, nitrates, enzymes, phosphates, animal fatty acids, hydrocarbon toxic solvents, non-biodegradable surfactants and ozone depleting substances.

Application:

Bike Metal Brightener removes typical dirt build-up on motorcycle metal parts and rims. It effectively removes oil, grease, soil, stains and dust on motorcycle without damaging the paint surface of the motorcycle. It also prevents grime build up to make future cleaning easier.

Directions:

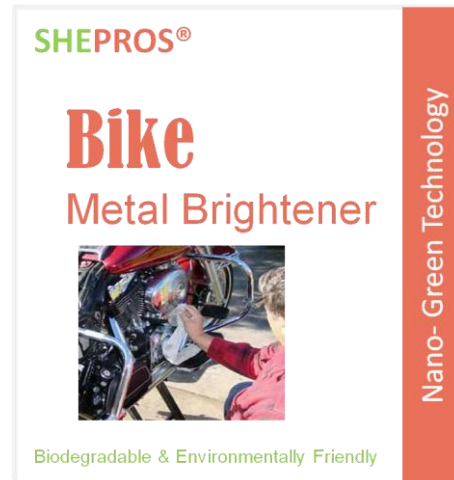

Wet the motorcycle metal parts and rims thoroughly. Apply diluted Bike Metal Brightener on sponge or cloth and scrub onto the motorcycle metal parts and rims evenly and leave it for 1 minute. Rinse with water. Use brush or rough sponge for stubborn grease.

Bike Metal Brightener: Water

Heavy grease and soil removing = 1 : 2

Medium grease and soil removing = 1 : 4

Mild grease and soil removing = 1 : 10

BIKE PLASTIC PROTECTANT – M-BPP 003**Product Description:**

Bike Plastic Protectant is a water based, non-foaming, non-skin irritating, biodegradable and environmentally friendly product. It is odorless and is mild to skin.

Bike Plastic Protectant does not contain silicones, wax, animal oil, petroleum distillates, soaps, chemical thickening agents, nitrates, enzymes, phosphates, animal fatty acids, hydrocarbon toxic solvents, non-biodegradable surfactants and ozone depleting substances.

Application:

Bike Plastic Protectant is effective in cleaning and protecting vinyl and plastic from attack of stains, mold, mildew, germs, dirt, contaminants and odor.

Directions:

- Clean the motorcycle vinyl and plastic surfaces with Bike Wash.
- Shake well. Test on small unnoticeable area first.
- Apply a small amount of Bike Plastic Protectant to a clean soft sponge or soft cloth.

Rub onto the surface of vinyl or plastic in a gentle circular motion. Wipe off excess and repeat if necessary. Multiple light coats are better than one heavy coat.

BIKE LEATHER CARE – M-BLC 004

Product Description:

Bike Leather Care is an oil based, non-foaming, non-skin irritating, biodegradable and environmentally friendly product. It is made of a mixture of 100% plant based oils. It is lemon-scented and is mild to skin.

Bike Leather Care does not contain alcohol, silicones, wax, animal oil, petroleum distillates, soaps, chemical thickening agents, nitrates, enzymes, phosphates, animal fatty acids, hydrocarbon toxic solvents, non-biodegradable surfactants and ozone depleting substances.

Application:

Bike Leather Care is effective in cleaning and protecting leather from attack of stains, mold, mildew, germs, dirt, contaminants and odor. It is specially formulated to deeply penetrate, soften and protect all kinds of leather.

Bike Leather Care is highly recommended for cleaning leather motorcycle seats and other leather-based areas.

Directions:

- Shake well. Test on small unnoticeable area first.
- Apply a small amount of Bike Leather Care to a clean soft sponge or soft cloth.
- Rub into leather in a gentle circular motion. Wipe off excess and repeat if necessary. Multiple light coats are better than one heavy coat.

BIKE ENGINE CLEANER – M-BEC 005

Product Description:

Bike Engine Cleaner is a water based, non-acidic, low-foaming, biodegradable and environmentally friendly cleaner. It is made of powerful Nano Biotech Colloidal Micelles (NBCM); using natural plant extracts, plant derivatives and biodegradable surfactants. It is odorless and is mild to skin.

Bike Engine Cleaner does not contain alcohol, petroleum distillates, hydrochloric acid, sulfuric acid, phosphoric acid, soaps, chemical thickening agents, nitrates, enzymes, phosphates, animal fatty acids, hydrocarbon toxic solvents, non-biodegradable surfactants and ozone depleting substances.

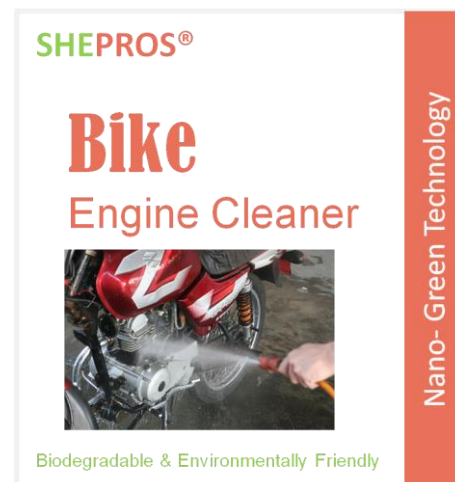

Application:

Bike Engine Cleaner effectively removes dirt, contaminants, oil and grease. Bike Engine Cleaner is superb to clean and maintain motorcycle engine. It is specially formulated for deep cleansing on motorcycle engine areas not harmed by water. It also prevents sediment build up to make future cleaning easier.

Directions:

All water sensitive electronic areas should be covered and not expose to water. Spray Bike Engine Cleaner onto the outer surface of the engine. Use a soft brush and scrub the surface until it is cleaned. Rinse with water.

Warning: Do not spray Bike Engine Cleaner to a running and hot engine.

TIRE CLEANER – M-TC 006

Product Description:

Tire Cleaner is a non-water based, non-foaming, non-skin irritating, biodegradable and environmentally friendly product. It is lemon-scented and is mild to skin.

Tire Cleaner does not contain alcohol, silicones, wax, animal oil, petroleum distillates, soaps, chemical thickening agents, nitrates, enzymes, phosphates, animal fatty acids, hydrocarbon toxic solvents, non-biodegradable surfactants and ozone depleting substances.

Application:

Tire Cleaner removes typical soil and dirt adhere to the tire surfaces. It also effectively removes oil, grease and stains without damaging the paint surface of the car. It prevents grime build up to make future cleaning easier.

Directions:

Apply Tire Cleaner onto the surface of the tires with a brush. Scrub the tire surface until it is cleaned. Rinse with water.
