

INVENTION AND INNOVATION PORTFOLIOS (I/V)

	<p>One of the global largest Oil and Gas companies.</p>
	<p>The biggest independent Heating, Ventilation, Air Conditioning and Refrigeration (HVACR) in the world.</p> <p>Contribute a patent (125 countries) in commercialization of air purification in HVACR.</p>
	<p>The biggest Automotive, Building Efficiency and Power Solutions company in the world.</p> <p>Contribute a patent (136 countries) for automobile air purification – Grant given by Mercedes-Benz of Germany.</p>
	<p>The world’s leading nutrition, health and wellness company.</p> <p>Removing of arsenic content in paddy field.</p>
	<p>Brown University– Ivy league institution founded in 1764 in Providence, Rhode Island, USA. World leader in nano-medicine Research and Development.</p> <p>Commercialization of the Nano Selenium for Air Purification. SHEPROS owns the Global Exclusive Right for HVACR applications.</p>
	<p>Chemviron Carbon (a wholly subsidiary of Calgon Carbon) is the world’s biggest manufacturer of activated carbon cloth which was originally developed by the British Ministry of Defence for the use in chemical warfare.</p> <p>Application of carbon cloth in household and industrial air purification. SHEPROS owns the exclusive right of Zorflex carbon cloth for HVACR in Asia.</p>

INVENTION AND INNOVATION PORTFOLIOS (II/V)

	<p>The largest rare earth company outside China. Listed in Australia Stock Exchange.</p>
	<p>Recycling of Magnesium Gypsum into fertilizers and soil conditioners.</p>
	<p>CHOBİ CO., LTD is a public listed company and the leading scientific agriculture, soil improvement and production of high quality fertilizer in South Korea.</p>
	<p>Non-Toxic Bactericide for Agriculture.</p>
	<p>The biggest chemical company in Taiwan, manufacturing of Purified Terephthalic Acid.</p>
	<p>Environmental friendly water based solvent (anti-rusting) to replace diesel for cleaning of the oily machinery and equipment.</p>
	<p>One of the biggest direct marketing companies in China.</p>
	<p>Developed the first household air purifier to achieve the requirement of GB/T 18801 for Air Cleaners in China.</p>
	<p>One of the biggest companies in total kitchen supplies in Fujian, China.</p>
	<p>Contribution of know-how in household cooking hood air purification.</p>
	<p>One of the ASEAN's largest manufacturer of high quality lime products.</p>
	<p>Recycling of palm oil mill effluent (POME) into fertilizers and soil conditioners.</p>
	<p>One of the biggest OEM and ODM companies in Asia.</p>
	<p>Innovating and designing of household air purifiers.</p>

INVENTION AND INNOVATION PORTFOLIOS (III/V)

	<p>Department of Standards Malaysia, Ministry of Science, Technology and Innovation (MOSTI).</p>
	<p>Work Group Committee to draft Malaysia Standard for Un-cleaned Edible Bird’s Nest.</p>
	<p>Guidelines For The Use Of Recycled Biosolids For Agricultural and Non-Agricultural Applications - Suruhanjaya Perkhidmatan Air Negara (SPAN) and Indah Water Konsortium Sdn. Bhd.</p>
	<p>Work Group Committee Chairman to initiate and to draft the first Malaysia Standard for Recycled Biosolids.</p>
	<p>Persatuan Pengusaha Burung Walit Kuantan Pahang.</p>
	<p>Technical advisor on removing nitrite and nitrate from edible bird’s nest.</p>
	<p>South East Asia Bird’s Nest Chamber of Commerce (SEABNCC) represents edible bird’s nest producing countries in South East Asia.</p>
	<p>One of the founding members and technical advisor.</p>
	<p>The biggest compost supplier in Malaysia.</p>
	<p>Eliminating of ganoderma boninense in palm oil plantation.</p>
	<p>Malaysia’s national sewerage company, providing sewerage services, operating and maintaining over 5,750 public sewage treatment plants.</p>
	<p>SHEPROS is selected by Suruhanjaya Perkhidmatan Air Negara (SPAN) and Indah Water Konsortium Sdn. Bhd. for the pilot project of recycling sewage sludge into fertilizers and soil conditioners.</p>

INVENTION AND INNOVATION PORTFOLIOS (IV/V)

	<p>Tongji University of Shanghai is one of the most reputable universities in China.</p>
	<p>Soil amendment of the oil polluted soil. Wastewater treatment.</p>
	<p>Universiti Tun Hussein Onn Malaysia</p>
	<p>Joint patent for fast treatment of chicken dung into fertilizer and soil conditioner. Greenhouse air purification.</p>
	<p>The second largest oil palm company in the world.</p>
	<p>Recycling of POME and EFB into slow release semi-organic fertilizer.</p>
	<p>Shanghai Xinrun Environmental Protection Co., Ltd. The largest cremator in Shanghai, China.</p>
	<p>Flue gas purification and sanitization for crematory.</p>
	<p>Jiangsu Fankun Environmental Protection Co., Ltd.</p>
	<p>Flue gas purification. Recycling of animal carcass incinerated ash into soil conditioner.</p>
	<p>Palm oil plantation own by Malaysia's biggest Islamic Financial Institution and is listed in Kuala Lumpur Stock Exchange.</p>
	<p>Soil conditioners for peat soil in Sarawak.</p>

INVENTION AND INNOVATION PORTFOLIOS (V/V)

	<p>The biggest fertilizer company in Malaysia. CCM is listed in Kuala Lumpur Stock Exchange.</p>
	<p>Inorganic soil conditioners for peat soil stabilization.</p>
	<p>The biggest aluminum company in the world.</p>
	<p>Recycling of red mud into soil conditioner for desert and peat soil.</p>
	<p>Shanghai Municipal Agriculture Commission.</p>
	<p>Recycling of the incinerator ash. Awarded a grant by the Shanghai Government for the “Elimination of steam from the incinerator flue gas”.</p>
	<p>Singer (Malaysia) Sdn. Bhd.</p>
	<p>Supplying of cleaning products.</p>
	<p>Cosway – China, Malaysia, Singapore, Hong Kong & Taiwan</p>
	<p>Coordinating and supplying of air purifier and filtration system.</p>
